Work Experience

Freelance | Game Developer

February 2024 - Present

- Independently programmed gameplay mechanics in Unreal Engine 5 and Unity
- Developed and designed Web Applications with React JS and Tailwind CSS
- Implemented advanced systems in Unreal Engine, including GAS, Motion Matching, and Multiplayer Networking for Steam
- Lead the development of multiple custom Unreal Engine 5 templates for rapid prototyping and large scale development

Workinman Interactive | Game Developer

May 2021 - February 2024

- Partnered with the primary development team for Noggin, winner of two Kidscreen awards
- Lead the development of 5 top performing games on the Noggin app
- Optimized games for multiple devices and platforms, meeting strict performance testing requirements
- Developed a custom Narrator tool with automatic silence detection in the Phaser engine, which resulted in an average decrease of 3 days of development time on future projects
- Spearheaded the development of a 3D Phaser engine using ThreeJS and AmmoJS physics
- Created an asset packaging tool to automatically import 3D assets into the 3D Phaser engine

Workinman Interactive | Web App Developer

May 2020 - November 2020

- Supported a team of over 10 developers to recreate educational courses from Adobe Flash to HTML
- Lead the development of over 15 modules out of 40 total modules in the span of 7 months
- Utilized Articulate 360 and Javascript to replicate the modules as closely to the original as possible
- Assisted members of the team on their own modules ensure the project was complete by the deadline

Magic Spells Studios | Game Designer

January 2020 - May 2020

- Designed a 2D platformer game focusing on movement mechanics featuring original IP
- Collaborated with a developer to ensure design ideas could be replicated in Unity and made adjustments as needed
- Created and implemented 3 platforming levels utilizing the games unique movement mechanics

Education

Rochester Institute of Technology | Bachelors of Science | Game Design and Development
